ADVANCED METAL CUTTING SERVICES

EVALUATING SPECIAL TOOLS

Special Tooling can come with lengthy lead times and a high price tag. It requires excessive amounts of stock for the lowest price and can leave you feeling out of options.

With Zero-Point Fixturing, 4 & 5 Axis rotary chuck's coupled with newer tooling programmed with the latest CAM techniques, DGI Supply can help you eliminate special tools and lower your overall production costs.

With DGI, Supply you get access to a Certified Manufacturing Technologist/ Machining Specialist that works alongside your company, eliminating as many special tools as possible and keeping your machines turning.

EQUIPMENT UTILIZATION

Thinking you need to add more capital equipment and hire more personnel to run these machines just to meet current product demand?

DGI Supply can help determine if your current assets are being utilized to their full potential. We will score your machines and then recommend proven solutions tailored to your products.

World Class OEE (Overall Equipment Efficiency) ranges around 40-45%, so before you budget for next years CAPEX get our Team at DGI Supply to work on providing and presenting you and your company with an unbiased, professional plan of action based on your company's forecasted Growth.

15,000 HOURS

NUMBER OF HOURS OF CUSTOMER
CYCLE TIME ELIMINATED FROM 2021-2022YTD
USING THE GTO+PROGRAMMING SERVICE

From 2021-2022 YTD, our DGI Machining Specialist have eliminated over 15,000 hours of customer cycle time with our GTO+ Programming service. Let our years of tooling and programming knowledge, gained from the experience of working on thousands of applications across an array of industries.

GTO+ can decrease your cycle time with a more streamlined program; achieve more tool life and increase the quality of parts with less work and scrap.

The GTO+ gives you Guaranteed Cycle Time Reduction along with a specialist ability to work on site during your part run-off and you get the unlocked program that was posted specifically for your control and machine.

We are expanding coverage 2023.
