

Buy 3M™ Abrasives and look good doing it.

Weld grinding is an important step in many metal fabrication processes, and cleanly removing the excess weld metal requires an abrasive that can be used both quickly and carefully. 3M has weld grinding solutions for every project and skill level. Whether you're looking for speed, ease-of-use or long abrasive life, 3M's fiber discs, flap discs and depressed center grinding wheels take down welds quickly to move your project onto the next step.

Spend \$200US on select 3M abrasives, get 10 free welding beanies.

Offer valid July 18th – September 30th

Purchase \$200US worth of products and the beanies will automatically be added to your order and shipped with it. Orders must be purchased through DGI Customer Service or your local sales rep. While supplies last. Speak with your local sales rep for a list of eligible products.
