GLOBALLY SITUATED

Today, PIP® is a leader in safety products.

BRANDS THAT EXTEND AROUND THE GLOBE.

MAIN PRODUCT CATEGORIES

HAND & ARM PROTECTION

PROTECTIVE GARMENTS

EYE & HEARING PROTECTION

ELECTRICAL SAFETY

HEAD PROTECTION

Protecting Hands

Up to 30 percent of hand injuries are attributed to fit, wear or simply the wrong type of glove for the hazard. PIP® believes it can help eliminate hand injuries on the job. Caiman® and Ironcat® welding gloves by PIP® are specifically designed for the unique heat shielding, dexterity and protection demands of Stick, MIG and TIG welding.

Safety Products You Can Trust

Over the last 10 years, PIP® has grown its product offering in personal protective equipment to deliver head-to-toe protection. Today, in addition to knit gloves and sleeves, we manufacture hard hats, face shields, ear muffs, ear plugs and first aid products.

KEY TO SAFETY IN WELDING

The key to injury reduction is not just product, it's understanding applications so that the right safety product is used.

Welding is inherently dangerous. Gas, flame, sparks, blinding light – nothing can be left to chance.

PIP® offers the right product specifically designed to help protect professional welders. Tailored to work with the different types of welding.

Hand & Arm Protection

CHOOSING THE RIGHT PROTECTION IS ESSENTIAL TO NOT ONLY MINIMIZING SAFETY RISKS BUT MAXIMIZING WORKER PRODUCTIVITY AND THE QUALITY OF THE WELD.

Caiman® and Ironcat® welding gloves and sleeves are specifically designed for the unique heat shielding, dexterity, tactility and protection demands of all welding and metal fabrication applications.

STICK
Maximum Heat Protection and Durability

MIG
Enhanced Dexterity and Comfort

TIG
Extreme Precision and Durability

SLEEVES
Extended Arm Protection

Body Protection

PROFESSIONAL WELDERS ARE CONSTANTLY AT RISK DUE TO WELDING EQUIPMENT THAT PUTS OUT HEAT, SPARKS, METAL AND FUMES.

Selecting the proper PPE depends on the hazard, where you work, how often you perform the task, jobsite requirements and ultimately what you are comfortable with.

WELDING JACKETS
Protect the torso, arms, back and neck

BIB APRONS
Protect the torso

CAPE SLEEVE
Protects the shoulders, upper chest and arms

The Caiman® brand is synonymous with innovation, comfort and quality in high performance gloves and protective clothing for welders and utility workers, offering premium, unique patented design features and an optimal fit.

Premium brand quality

Patented 3D design with KONTOUR™ fit

Kontour™ – 3-dimensional form-fitting patterns that vastly improve fit, comfort and dexterity – all things missing from traditional welding and work gloves.

Reinforced protection

Reinforcement patches that are strategically shaped and positioned on the palm to ensure comfort while providing enhanced durability.

High-performance materials

Made with premium materials, Caiman® welding gloves stand up to the toughest of jobs while remaining flexible, comfortable and durable.

& patented innovation

EXCLUSIVE FEATURES

3-dimensional pattern for ergonomic fit and maximum comfort.

Patented Kontour Wrist™ design to enhance comfort and safety.

Superior insulation that's naturally antimicrobial with moisture-wicking properties.

Lock-stitching for flame-resistant, high-strength seam integrity.

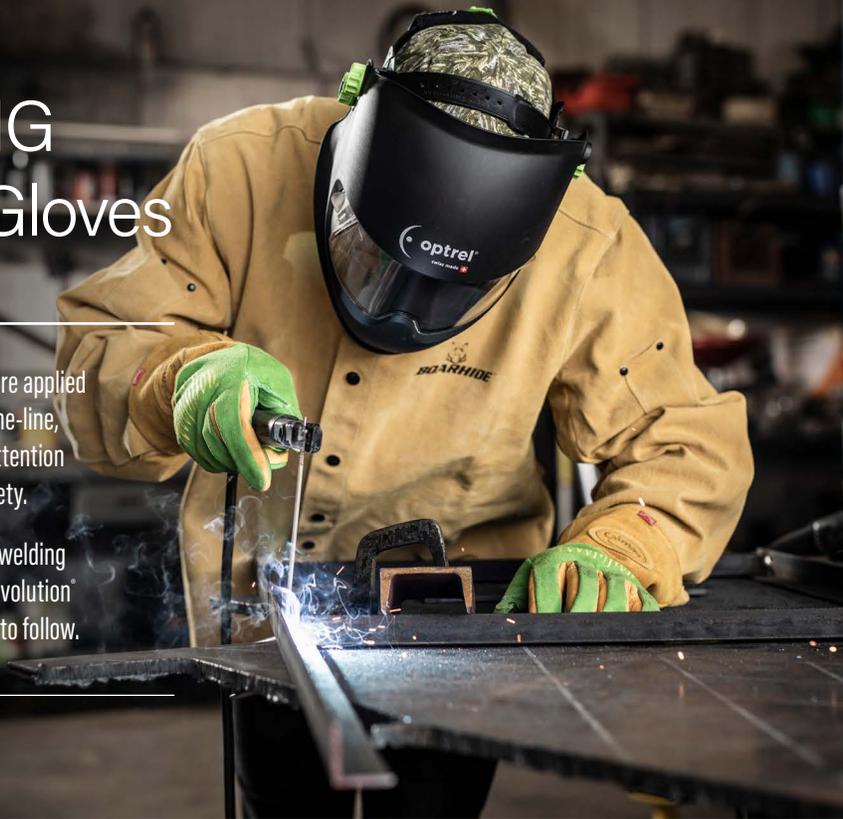

PREMIUM Stick / MIG Welding Gloves

The Revolution® Series offers a 3-dimensional, form-fitting design never before applied to welding gloves. The Revolution® Series has become known as the top-of-the-line, most premium welding gloves in the world. From material selection to the attention to design details, Revolution® delivers unprecedented comfort, style and safety.

Revolution®, as the name suggests, is a complete departure from traditional welding gloves with minimal comfort, finger dexterity, or aesthetic value. Caiman® Revolution® gloves instantly set the bar higher and became the new standard for others to follow.

Welding Accessories

Welding Blanket

Silkglass™ Welding Blanket 69661

- Extra soft and pliable to easily conform to equipment or work environment
- Withstands temperatures over 1000°F (538°C)

STYLE NUMBER	FABRIC	WEIGHT	COLORS	SIZES
69661	Silkglass™	26 oz.	White	6' x 6'
69662	Silkglass™	52 oz.	White	6' x 6'
69682	Silkglass™	26 oz.	White	6' x 8'

Electrode Holder

Boarhide® Electrode Holder 3250

- Reinforced bottom
- Spring clip
- Belt Loop

STYLE NUMBER	FABRIC	THREAD	COLORS	SIZES
3250	Pigskin	Kevlar™	Gold	One Size

Headgear Pad

Sheepskin Welding Helmet Headgear Pad 60704

- Made of soft and comfortable wool that naturally prevents odor from sweat build up
- Snap buttons secure sweatband to helmet headgear
- Fits most welding helmets

Gear Bag

Waterproof Gear Bag 66980

- Waterproof heavy-duty ballistic nylon material with double-stitched handles for durability
- 13 external pockets and 10 internal pockets offer plenty of storage to hold your tools

STYLE NUMBER	FABRIC	POCKETS	COLORS	SIZES
66980	Waterproof Nylon	13	Black	One Size

Leather Cover Mitt

Leather Cover Mitt 1879-1

- Durable Boarhide® provides exceptional abrasion, heat and puncture resistance due to its natural characteristics
- Can be used on left or right hand

Leather Apparel

Protective clothing is made of premium quality split pigskin leather. Boarhide® is 15 to 25% lighter, stays cleaner, more breathable and offers better cut, abrasion and heat resistant values than split cowhide leather of equal thickness. Also, unlike split cowhide leather, Boarhide® is naturally elastic which provides enhanced mobility.

Jackets

30" Gold Boarhide® Jacket
