

Abrasive **Solutions** Program

The DGI Supply Abrasive Solutions Program empowers customers to maximize productivity by providing direct access to our team of technical experts. We will pinpoint essential metrics and programs for alignment, establish a measurable baseline, and then execute an improvement plan to create a WIN-WIN outcome. Our focus is on enhancing safety, quality, and productivity, ultimately leading to significant overall cost savings.

POWERFUL PRODUCT PORTFOLIO WITH AN ABRASIVE SOLUTION FOR EVERY MARKET

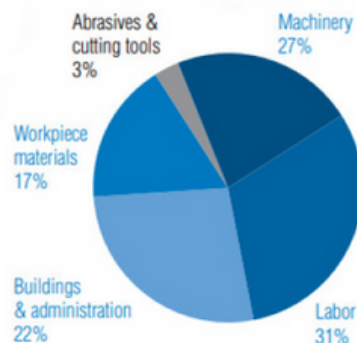

DGI Supply provides an extensive selection of abrasive products tailored to fulfill all your requirements. Whether you're working with metal, wood, or various other materials, our abrasives are guaranteed to deliver the performance and durability you need. Rely on DGI Supply for all your abrasive needs and discover the exceptional quality and service we offer.

TYPICAL COST REDUCTIONS

- Decreasing the price of abrasives A 30% price reduction will reduce costs per part by only 1%.
- Increasing the life of abrasives 1% Even a 50% increase in product life will reduce costs per part by only 1%.
- Increase overall productivity. With a 20% decrease in cycle time per part, there will be a reduced total cost per part of more than 15%.
